Enriching Dental Careers Since 1997

## Students Profile

### ***Dr. Jatin Kumar ADC (Australia) 2013***

Classroom sessions, personalized guidance especially exhaustive mock tests enable me to complete the exam in time. Thanks  
I'm grateful to AHEAD on my successful completion of ADC in 1st attempt. Instructor's vast experience and guidance helped me through this journey.

### ***Dr. Balbir Kumar NDEB (Canada) 2011***

I was first student of Prof. Dr. Atul Sooin's and first NDEB Canada from the training Centre. The professional ambiance, his teaching techniques, discussions during the class, the mock tests and his examples from his work experience made it too easy for me to learn and pass the exam. I found that his approach facilitates students to learn the concepts so that it can be applied in anywhere with ease. Because of NDEB Canada qualifications, I moved up in my career.

### ***Dr. Varsha Budakoti COMEDK 2015 Rank 1***

I wholeheartedly would like to thank AHEAD for the great encouragement, the wonderful classes and the solid methodology provided during my course which helped me in obtaining MDS smoothly. The class lectures cover not only the subject but also relevant matters in the current practices.

### ***Dr. Shifali Garg NBDE (USA) Part 1 & Bench Test 2014***

AHEAD's Review classes, mock tests, test preparation tips and exam strategy have assisted me in achieving the results. I thank AHEAD and team for guidance and support. NBDE (USA) Part 1 & Bench Test

### ***Dr. Gurmeet Pahuja ORE (UK) 2008***

The in depth knowledge and vast experience of Prof. Dr. Atul Sooin's are inimitable in preparing for the ORE (UK) and can rarely be replicated by others. The lucid explanations, sincere beyond the call of duty coaching and the Power Point presentations were very helpful in passing the exams in the first attempt. AHEAD supported me after review sessions too. It gave me right direction in achieving ORE (UK) certification.

### ***Dr. Ahmed Md. Eisa (SAUDIA ARABIA) Clinical Course 2014***

AHEAD General Dentistry (Endodontics, Esthetics Prosthodontics, Periodontics & Oral Surgery) Clinical Course is easy to understand, as it is interactive, interesting with the use of simple techniques and practical examples. Guidance and support throughout the preparation brought out the best in me.
